

PHASE 2

REVISION OF THE STATUTES OF REGNUM CHRISTI

1 GROUP DISCERNMENT ON OUR IDENTITY AS LAY Regnum Christi Members May 2015 -February 2016

As members of 1st and 2nd degree we meet in groups to discuss and discern who we are as Movement members and how we live the charism of Regnum Christi.

We will discern from a 'Working Document', which contains draft statutory numbers. In group discussions, we must express our opinions on whether or not it suitably reflects our identity, what is missing and what should be removed or remain.

What are we discerning?

We are discerning whether the draft statutory numbers in the working document adequately express the charism of Regnum Christi as it should be lived by the members of the 1st and 2nd degree, and if it is sufficient to promote and safeguard the standards of the charism appropriately. In group dialogue we will discern what is missing and what to keep in the draft or modify, and we will vote on the proposals. Each group will have a moderator who leads the sessions and a secretary who will keep minutes and collect the reflections that the group will share in this process.

This is a search for understanding of the will of God for the Movement, to know how to better live the gift received and how to better fulfill the mission.

Guidelines for discernment

A prayerful and thoughtful reading of the working document is needed to discover and unravel all the richness of the charism contained.

- Since the Holy Spirit is the protagonist in the process of discernment, we must pray for His guidance.
- In order for the discussion to be fruitful we are invited to live these meetings prayerfully, with the sincere pursuit of discerning the will of God, detachment from one's personal preferences, with openness and listening to the Holy Spirit speaking in our hearts and through others, with respect for the other person and with a sense of communion. The health and richness of the meetings where we exchange views depend on everyone being able to clearly and freely express their point of view. This is not meant to be a time to dispute the opinions of others or to want to convince them, but to express one's own opinion and listen attentively to others.

-In reflecting on the texts it is more important to focus on the ideas expressed than on the wording of the text, since this is not a final draft.
